**Qualitative assessment**

Does your country have a national communication strategy addressing DLDD and/or DLDD synergies with climate change and biodiversity in place?

Yes

No

Provide any complementary information as needed (e.g., regarding the implementation of the Comprehensive Communication Strategy, activities relating to the United Nations Decade for Deserts and the Fight Against Desertification, etc.):

Operational objective 1: Advocacy, awareness raising and education

Provide a short description of actions taken at the national level to promote participation by CSOs and STIs in the Convention processes.

An effort is underway to restructure the funding framework for CSOs, by amending national laws. STIs utilize the funding opportunities provided by the E.U. to undertake projects and research initiatives on cross cutting fields, including DLDD.

Operational objective 1: Advocacy, awareness raising and education

CONS-0-4

Number and type of DLDD-related initiatives of civil society organizations (CSOs) and science and technology institutions (STIs) in the field of education

Global target

A steady growth in the number of DLDD-related education initiatives undertaken by CSOs and STIs is recorded along the implementation period of The Strategy

--

Qualitative assessment

Is your country undertaking initiatives to increase the number of DLDD-related initiatives in the education sector implemented by CSOs and STIs? Yes  No

Provide a short description of actions taken at the national level to increase the number of DLDD-related initiatives of CSOs and STIs in the field of education.

Under national law, Environmental Education is a compulsory part of the programs of both the primary and the secondary education systems. The purpose of the Environmental Education is to make pupils aware of the relationship between people and the natural and social environment, be aware of the problems associated with it and engage with specific programs in order to contribute to the overall effort to address them. The topics of Environmental Education stem from the need to protect the natural, historical and social environment, viewing critical issues in accordance with local, national and global priorities, as expressed at the Rio Summit, including of course land and water related issues. Environmental Education is carried out in schools as well as in the 48 Environmental Education Centers throughout the country. Efforts to increase activities for DLDD related issues in the field of education have been partly integrated into the national educational policy.

**CONS-0-5** Number of affected country Parties, subregional and regional entities to have finalized the formulation/ revision of national, subregional and regional action programmes (NAPs/SRAPs/RAPs) aligned to The Strategy, taking into account biophysical and socio-economic information, national planning and policies, and integration into investment frameworks

**Global target** Percentage of affected country Parties, subregional and regional entities that have formulated/ revised a NAP/SRAP/RAP aligned to The Strategy **≥ 80 %** **2018**

National contribution to the global target

Does your country have a NAP aligned to the Strategy? Yes  No

Qualitative assessment

Is your NAP being implemented? Yes  No

Please answer the following two questions only if your country has not aligned the NAP to the Strategy

Voluntary national target

When do you plan to align your NAP to the Strategy? 2014-2015   
 2016-2017   
 2018-2019   
 No Plan Yet

Which national target your country has established to measure progress in achieving the priorities established in the national action programme, if different from the target suggested above?

Qualitative assessment

Provide any complementary information as needed (e.g., national circumstances affecting the NAP alignment and implementation process)

The NAP was established in 2001 and includes a number of provisions relating to the establishment of regional operational plans for addressing DLDD issues. Most of the pressures asserted on land and water, leading to land degradation, have been addressed over the years mostly through the National Rural Development Plan (RDP) 2000 – 2006 and 2007-2014, as well as the "Environment - Sustainable Development Operational Program" of the National Strategic Reference Framework, which are funded by the EU and the Greek national budget. Greece has diverted all its strategic priorities of addressing DLDD issues mainly by integrating NAP priorities into the national development plans of the relevant sectoral policies.

Sources of information

**CONS-O-7**

Number of initiatives for synergistic planning/programming of the three Rio conventions or mechanisms for joint implementation, at all levels

**Global target**

Each affected country Party has either one joint national plan in place or functional mechanism(s) to ensure synergies among the three Rio conventions

2014

**National contribution to the global target**

Was your country implementing joint planning/programming initiatives for the three Rio conventions in the current reporting period?

Yes

Yes, but for only two of the Rio conventions

No

Were there any operational mechanisms that facilitated joint implementation of the three Rio Conventions during the current reporting period?

Yes

Yes, but for only two of the Rio conventions

No

Please answer the following questions if your country does not have such initiatives or mechanisms in place

**Voluntary national target**

Does your country plan to implement joint planning/programming and when?

**CONS-0-8** Number of affected country Parties, subregional and regional entities to have established and supported a national/subregional/regional monitoring system for DLDD

**Global target** Percentage of affected country Parties, subregional and regional reporting entities that have established and supported national monitoring systems for DLDD **≥ 60 %** **2018**

**National contribution to the global target** Is a monitoring system specifically dedicated to DLDD established in your country? Yes  No

Please answer the following questions if your country has not established and supported national monitoring systems for DLDD by the end of the current reporting period

**Voluntary national target** When does your country plan to establish and support a national monitoring system for DLDD? 2014-2015

**Qualitative assessment**

Does your country have a monitoring system partially covering DLDD? Yes  No

Provide any complementary information as needed (e.g., major difficulties experienced, how the system is being supported, etc.):

Today Greece has a number of monitoring systems in place for measuring water, air and soil parameters. All of them partially supported financially by the Government or various programs and projects in collaboration with other partners.

**Knowledge-sharing systems**

List any DLDD-relevant knowledge-sharing system in your country, providing an Internet link and estimated number of users per year (add as many rows as necessary).

**CONS-O-13**

Number of countries, subregional and regional reporting entities engaged in building capacity to combat DLDD on the basis of the National Capacity Self-Assessment (NCSA) or other methodologies and instruments

**Global target**

Percentage of affected country Parties, subregional and regional reporting entities that implement DLDD-specific capacity-building plans or programmes/projects

≥ 90 %

**National contribution to the global target**

Is your country implementing DLDD-specific capacity-building plans or programmes/projects on the basis of the NCSA?

Yes

No

Is your country implementing DLDD-specific capacity-building plans or programmes/projects on the basis of other methodologies and instruments to assess national capacity-building needs?

Yes

No

Provide any relevant information on the size, scope, effectiveness and status of the initiatives implemented, or other complementary information as needed

**Sources of information**

**Voluntary national target**

If at the time of reporting there are no DLDD-specific capacity-building plans, programmes or projects implemented in your country, when does your country plan to have them in place?

Which national target your country has established to measure progress in achieving the priorities established in the national action programme, if different from the target suggested above?

**Qualitative assessment**

Has your country assessed DLDD-related capacity-building needs?

Yes

No

Did you country receive technical and/or financial assistance to build capacities to combat DLDD?

Yes

No

**CONS-O-14**

Number of affected country Parties, subregional and regional entities whose investment frameworks, established within the integrated financing strategy (IFS) devised by the Global Mechanism (GM) or within other IFSs, reflect leveraging national, bilateral and multilateral resources to combat DLDD

**Global target**

Percentage of affected country Parties, subregional and regional reporting entities that have developed integrated investment frameworks (IIFs)

≥ 50 %

2014

**National contribution to the global target**

Does your country have an integrated investment framework?

Yes

No

Provide any complementary information as needed (e.g. is the IIF based on the NAP; non-traditional and innovative financing targeted by the IIF; overview of the progress in implementing the IIF in your country; assistance received in the development or implementation of the IIF from the GM or other development partners, etc.)

Greece is using the financial resources of the EU structural funds, as well as its national budget to cover the needs for the necessary interventions and activities for the implementation of the strategic priorities for combating DLDD. As mentioned before, the identification of national priorities fall under the overall umbrella of the Operational Programs of the National Strategic Reference Framework (NSRF) and therefore priorities for combating DLDD problems have been integrated into the national development plans of the relevant sectoral policies.

**Sources of information**

Please answer the following questions only if your country has not developed an IIF by the end of the reporting period

**Voluntary national target**

When does your country plan to establish an IIF?

Please describe below:

Special reference to CONS-0-7:

Under E.U. Regulations, all funding from structural funds during the 2014-2020 programming period is contingent upon a Common Strategic Framework (CSF), which establishes the strategic guiding principles to facilitate the programming process and the sectoral coordination of European Union intervention, taking into account the key territorial challenges of the various types of territories. In line with CSF, every EU member state needs to implement a joint planning of all sectoral operational programs in order to achieve a synergistic maximization of achieved results.

Under this provision, Greece is currently preparing the new sectoral development plans for the upcoming programming period, applying a joint approach in achieving the priorities set out in the action plans of the Rio Conventions, thus integrating the need for synergistic planning into the national development plans of the relevant sectoral policies.

Under the new reporting procedure, an effort has been made to report all relevant activities in compliance with our obligations to the Convention. Obviously a task like this requires a huge effort to cooperate with all relevant Ministries and other pertinent authorities, and to communicate effectively

the necessary information. National Public Administration has various databases of projects and programs, that are not interconnected, which makes the data/information collecting task rather arduous.

Since the reporting process cannot be delegated, due to lack of sufficient funding, it becomes quite a large task to handle within regular working schedules of all people involved. Despite the fact, that this report is not necessarily comprehensive, it represents a very good compilation of all programs and projects that took place or are still on going in Greece during the reporting period 2012-2013.
