Qualitative assessment

Does your country have a national communication strategy addressing DLDD and/or DLDD synergies with climate change and biodiversity in place?

Yes No

Provide any complementary information as needed (e.g., regarding the implementation of the Comprehensive Communication Strategy, activities relating to the United Nations Decade for Deserts and the Fight Against Desertification, etc.):

Operational objective 1: Advocacy, awareness raising and education

Operational objective 1: Advocacy, awareness raising and education

Montenegro's national voluntary target for the next biennium is to have at least two STI institutions (one that is already participating and an additional one), and one CSO participating in the Convention process. This will count towards a 100% increase in the number of CSOs and STIs participating in the Convention process in the next biennium.

Qualitative assessment

Is your country undertaking initiatives to increase the participation of CSOs and STIs in DLDD-related programmes and projects? Yes No

Provide a short description of actions taken at the national level to promote participation by CSOs and STIs in the Convention processes.

Process of the alignment of the NAP with the 10-year Strategy will be used to improve CSO and STI participation in the UNCCD process.

Operational objective 1: Advocacy, awareness raising and education

CONS-O-4

Number and type of DLDD-related initiatives of civil society organizations (CSOs) and science and technology institutions (STIs) in the field of education

Global target

A steady growth in the number of DLDD-related education initiatives undertaken by CSOs and STIs is recorded along the implementation period of The Strategy

National contribution to the global target: number of DLDD-related initiatives implemented by CSOs and STIs in the field of education

Year	Number of CSOs initiatives	Number of STIs initiatives
2008		
2009		
2010		
2011		
2012		1
2013		
2014		
2015		
2016		
2017		
2018		

Sources of information

Answers to the Questionnaire for Stakeholders (CSO and STI)

Voluntary national target

Percent increase in the number of DLDD-related education initiatives undertaken by CSOs and STIs, per biennium

Which national target your country has established to measure progress in achieving the priorities established in the national action programme, if different from the target suggested above?

Montenegro's national voluntary target for the next biennium is to have at least one new DLDD-related education initiative. This will count towards a 100% increase in the number of DLDD-related education initiatives.

Qualitative assessment

Is your country undertaking initiatives to increase the number of DLDD-related initiatives in the education sector implemented by CSOs and STIs?

Yes No

Provide a short description of actions taken at the national level to increase the number of DLDD-related initiatives of CSOs and STIs in the field of education.

Biotechnical faculty (University of Montenegro), Ministry of Agriculture and Rural Development of Montenegro will advance their activities in DLDD-related activities.

CONS-0-5 Number of affected country Parties, subregional and regional entities to have finalized the formulation/revision of national, subregional and regional action programmes (NAPs/SRAPs/RAPs) aligned to The Strategy, taking into account biophysical and socio-economic information, national planning and policies, and integration into investment frameworks

Global target Percentage of affected country Parties, subregional and regional entities that have formulated/revisioned a NAP/SRAP/RAP aligned to The Strategy **≥ 80 %** **2018**

National contribution to the global target

Does your country have a NAP aligned to the Strategy? Yes No

Qualitative assessment

Is your NAP being implemented? Yes No

Please answer the following two questions only if your country has not aligned the NAP to the Strategy

Voluntary national target

When do you plan to align your NAP to the Strategy? 2014-2015
 2016-2017
 2018-2019
 No Plan Yet

Which national target your country has established to measure progress in achieving the priorities established in the national action programme, if different from the target suggested above?

Qualitative assessment

Provide any complementary information as needed (e.g., national circumstances affecting the NAP alignment and implementation process)

Sources of information

CONS-O-7

Number of initiatives for synergistic planning/programming of the three Rio conventions or mechanisms for joint implementation, at all levels

Global target

Each affected country Party has either one joint national plan in place or functional mechanism(s) to ensure synergies among the three Rio conventions

2014

National contribution to the global target

Was your country implementing joint planning/programming initiatives for the three Rio conventions in the current reporting period?

Yes

Yes, but for only two of the Rio conventions

No

Were there any operational mechanisms that facilitated joint implementation of the three Rio Conventions during the current reporting period?

Yes

Yes, but for only two of the Rio conventions

No

Please answer the following questions if your country has such initiatives or mechanisms in place

Qualitative assessment

If your country has initiatives for synergistic planning/programming of the three Rio conventions, specify the type of joint initiative(s):

- Evaluation of national plans and identification of gaps in synergies
- Identification of national sectors and policies that could benefit from synergies and cooperation
- Review of national policies to enhance cooperation and synergies
- Enhancement of the institutional and scientific capacities and awareness of relevant stakeholders
- Other (please describe below):

Implementation of the project Capacity building for integration of global environment commitments in investment/development decisions. The immediate objective of this project is to analyze, identify, and pilot advanced tools and practices for environmental information management and compliance monitoring of the national implementation of the Rio Conventions.

Qualitative assessment

If your country has mechanisms for joint implementation, specify the type of mechanism(s):

- Regular meetings between focal points and focal point teams of the Rio conventions
- A national coordinating committee for the implementation of the Rio conventions
- National coordination on synergies in reporting under the Rio conventions
- Other (please describe below):

Specifically, the project Capacity building for integration of global environment commitments in investment/development decisions will develop national capacities collect and analyze data and information against the metrics of global environmental indicators, and integrate these within national sustainable development and environmental decision-making processes

Provide any complementary information as needed:

http://www.me.undp.org/

CONS-O-8

Number of affected country Parties, subregional and regional entities to have established and supported a national/subregional/regional monitoring system for DLDD

Global target

Percentage of affected country Parties, subregional and regional reporting entities that have established and supported national monitoring systems for DLDD

≥ 60 %

2018

National contribution to the global target

Is a monitoring system specifically dedicated to DLDD established in your country?

Yes No

Please answer the following questions if your country has not established and supported national monitoring systems for DLDD by the end of the current reporting period

Voluntary national target

When does your country plan to establish and support a national monitoring system for DLDD?

2014-2015 2016-2017 2018-2019 No Plan Yet

Which national target your country has established to measure progress in achieving the priorities established in the national action programme, if different from the target suggested above?

Sources of information

Qualitative assessment

Does your country have a monitoring system partially covering DLDD?

Yes No

Provide any complementary information as needed (e.g., major difficulties experienced, how the system is being supported, etc.):

1. Within annual monitoring of the state of the environment, Environment Protection Agency of Montenegro performs monitoring of the soil contamination. As a result of this action types and levels of soil contamination are being identified and vulnerable areas and hot-spots are located. The legal bases for this task make the Law on Environment (Official Gazette no. 48/08), Law on Agricultural land (Official Gazette no. 15/92, 59/92, 27/94) and Rulebook on the permitted concentration of harmful and dangerous substances in the soil and methods for analysis.

2. The project Drought Management Centre for South East Europe (DMCSEE) gave significant contribution to regional monitoring of drought by:

- Preparing regional drought monitoring, analysis and early warning products and make them available on a near real-time basis to relevant users in participating countries and broader SEE region.
- Assessing regional vulnerability (mainly in agriculture) to drought impacts
- Promoting and strengthen the capacity for drought preparedness, monitoring and management in participating countries through organisation of training events and national seminars
- Setting up Drought Management Centre for South East Europe to serve as an operational centre for SEE for drought preparedness, monitoring and management and to coordinate and integrate drought related services of National Meteorological and Hydrological Services (NHMSs) and other relevant institutions in participating countries and broader SEE region.
- Facilitating the exchange of knowledge, experience and best practice on drought issues through the established SEE network in order to enhance synergy effects.
- Enhancing the implementation of the EU policies in the context of drought preparedness, monitoring and management, in particular in working out national drought strategies.
- Raising awareness of decision makers, relevant stakeholders and end users about the importance of

Operational objective 3: Science, technology and knowledge

effective drought preparedness, monitoring and management in the SEE region.

3. Monitoring done by the Hydrometeorological and Seismological Service of Montenegro:

- SPI (Standardized Precipitation Index) for time step calculation from one day to one month
- FVC (Fraction of vegetation cover) and LAI (leaf area index) - monthly values
- CDD (number of consecutive dry days)
- HWDI (duration of heat waves index)
- Seasonal weather forecasts- Meteo France
- Products of the Regional Center for management of drought in the region of Southeast Europe- DMCSEE (eg. Monthly newsletters FVC and LAI, the spatial distribution of temperature, precipitation and SPI index in the region)
- Advice in relation to climate (Climate watch advisory) for RA VI RCC Network in Offenbach regarding Climate Monitoring (RCC-CM) and the RCC- LRF websites related to long-term forecasts.

Knowledge-sharing systems

List any DLDD-relevant knowledge-sharing system in your country, providing an Internet link and estimated number of users per year (add as many rows as necessary).

CONS-0-10

Number of revised NAPs/SRAPs/RAPs reflecting knowledge of DLDD drivers and their interactions, and of the interaction of DLDD with climate change and biodiversity

Global target

Percentage of revised NAPs/SRAPs/RAPs that have successfully gone through a quality self-assessment.

≥ 70 %

2018

CONS-O-13

Number of countries, subregional and regional reporting entities engaged in building capacity to combat DLDD on the basis of the National Capacity Self-Assessment (NCSA) or other methodologies and instruments

Global target

Percentage of affected country Parties, subregional and regional reporting entities that implement DLDD-specific capacity-building plans or programmes/projects

≥ 90 %

National contribution to the global target

Is your country implementing DLDD-specific capacity-building plans or programmes/projects on the basis of the NCSA?

Yes No

Is your country implementing DLDD-specific capacity-building plans or programmes/projects on the basis of other methodologies and instruments to assess national capacity-building needs?

Yes No

Provide any relevant information on the size, scope, effectiveness and status of the initiatives implemented, or other complementary information as needed

-Project Montenegro Institutional Development and Agricultural Strengthening has the objective to mainstream sustainable land use and natural resource management into Ministry of Agriculture and Rural Development policies, programs and investments. These efforts will be particularly critical for the north of Montenegro, where there are sensitive mountain ecosystems of global importance, and where poor rural residents are largely dependent on the natural resource base for their livelihoods. In frame of MIDAS project it is started with initiative to implement activity in information collecting and processing for the needs of the Land Degradation Focal Area - Portfolio Monitoring and Assessment Tool (GEF Tracking Tool)
<http://www.thegef.org/gef/node/4403>

Also, program for grants mentioned above, has been used for building institutional capacities and enforcing human resources in MARD as well . Also, expertise done through MIDAS project, current status and recommendations for improvement in frame of preparation of GEF eligible measures, preparation of code of GAP (Good Agriculture Practice) for Montenegro, helped a lot in understanding of these issues and learning extension service in agriculture to implement and follow up on agri-environmental policies, measures and GAP recommendation.

- Implementation of the project Capacity building for integration of global environment commitments in investment/development decisions

Sources of information

Answers to the Questionnaire for Stakeholders (Government institutions, Donors, STI, CSO)

www.me.undp.org

<http://www.midas.co.me/indexEn.html>

Qualitative assessment

Has your country assessed DLDD-related capacity-building needs?

Yes No

Did your country receive technical and/or financial assistance to build capacities to combat DLDD?

Yes No

From which institutions and which type of assistance was provided?

Financial

Technical

UNCCD Secretariat

Global Mechanism

Global Environment Facility

Bilateral agencies

Other multilateral organizations

CONS-O-14

Number of affected country Parties, subregional and regional entities whose investment frameworks, established within the integrated financing strategy (IFS) devised by the Global Mechanism (GM) or within other IFSs, reflect leveraging national, bilateral and multilateral resources to combat DLDD

Global target

Percentage of affected country Parties, subregional and regional reporting entities that have developed integrated investment frameworks (IIFs)

≥ 50 %

2014

National contribution to the global target

Does your country have an integrated investment framework?

Yes

No

Provide any complementary information as needed (e.g. is the IIF based on the NAP; non-traditional and innovative financing targeted by the IIF; overview of the progress in implementing the IIF in your country; assistance received in the development or implementation of the IIF from the GM or other development partners, etc.)

Montenegro is currently aligning its NAP with the UNCCD 10-year Strategy and IFS will be developed as its integral component.

Sources of information

Please answer the following questions only if your country has not developed an IIF by the end of the reporting period

Voluntary national target

When does your country plan to establish an IIF?

2014-2015

2016-2017

2018-2019

No Plan Yet

Which national target your country has established to measure progress in achieving the priorities established in the national action programme, if different from the target suggested above?

--

CONS-O-16

Degree of adequacy, timeliness and predictability of financial resources made available by developed country Parties to combat DLDD

Rating of the bilateral assistance received for the implementation of the Convention and its Strategy during the reporting period

Adequacy of bilateral assistance received	Adequate	<input type="checkbox"/>
	Fairly adequate	<input checked="" type="checkbox"/>
	Not adequate	<input type="checkbox"/>
<hr/>		
Timeliness of bilateral assistance received	Timely	<input type="checkbox"/>
	Fairly timely	<input checked="" type="checkbox"/>
	Not timely	<input type="checkbox"/>
<hr/>		
Predictability of bilateral assistance received	Predictable	<input type="checkbox"/>
	Fairly predictable	<input checked="" type="checkbox"/>
	Not predictable	<input type="checkbox"/>

Provide any complementary information (e.g., additional information on other aspects beyond those mentioned above which impact proper planning and effective implementation of the Convention in your country, etc.)

Qualitative assessment

Did your country receive assistance in raising resources from bilateral donors? Yes No

CONS-0-18

Amount of financial resources and type of incentives which have enabled access to technology by affected country Parties

Global target

A steady growth in the financial resources allocated to facilitate access to technology by affected country Parties is recorded along the implementation period of the Strategy

A steady growth in the number of economic and policy incentives reported upon is recorded along the implementation period of the Strategy

National contribution to the target: estimated amount of financial resources allocated to facilitate access to technology

Year	Currency	Amount
2008		
2009		
2010		
2011		
2012	EUR - Euro	1200000
2013	EUR - Euro	1200000
