**Qualitative assessment**

Does your country have a national communication strategy addressing DLDD and/or DLDD synergies with climate change and biodiversity in place?

Yes

No

### Operational objective 1: Advocacy, awareness raising and education

Provide any complementary information as needed (e.g., regarding the implementation of the Comprehensive Communication Strategy, activities relating to the United Nations Decade for Deserts and the Fight Against Desertification, etc.):

While the UN Decade for DLDD was not formally launched in Samoa there are relevant LDD social actions (policy, technical, political, or otherwise) that were or are being implemented as integral parts of various national environmental policies of the country. These policies include the National Sustainable Development Strategy (NSDS), the National Action Plan (NAP), the National Biodiversity Strategy and Action Plan (NBSAP), the National Environment Sector Plan (NESP) and the National Adaptation Programme of Action (NAPA).

Which national target your country has established to measure progress in achieving the priorities established in the national action programme, if different from the target suggested above?

--

Qualitative assessment

Is your country undertaking initiatives to increase the participation of CSOs and STIs in DLDD-related programmes and projects?

Yes  No

Provide a short description of actions taken at the national level to promote participation by CSOs and STIs in the Convention processes.

<p>Figures for 2014 on the number of CSOs and STIs have reduced from figures of the 2012 report, especially the number of CSOs, due to the inclusion of only national CSOs and government STIs that are directly involved in relevant UNCCD national programs and projects.</p> <p>Government has provided various incentives to support the participation of CSOs and STIs in the UNCCD and the other Rio Convention processes. These include the following:</p> <ol style="list-style-type: none"> <li>1] Tax exemption on CSO materials and services for administrative, awareness, and community support operations.</li> <li>2] A general preference of the Government of Samoa to offer the consultant/advisory services for its projects and programs to local CSOs and STIs if they have the required qualifications.</li> <li>3] All local CSOs and STIs are represented in most government programs and projects both at the national and local coordination and implementation levels.</li> </ol>

Operational objective 1: Advocacy, awareness raising and education

CONS-O-4

Number and type of DLDD-related initiatives of civil society organizations (CSOs) and science and technology institutions (STIs) in the field of education

Global target

A steady growth in the number of DLDD-related education initiatives undertaken by CSOs and STIs is recorded along the implementation period of The Strategy

Which national target your country has established to measure progress in achieving the priorities established in the national action programme, if different from the target suggested above?

Qualitative assessment

Is your country undertaking initiatives to increase the number of DLDD-related initiatives in the education sector implemented by CSOs and STIs? Yes  No

Provide a short description of actions taken at the national level to increase the number of DLDD-related initiatives of CSOs and STIs in the field of education.

Inclusion of CSOs and STIs in all LDD relevant government programmes and projects

**CONS-0-5** Number of affected country Parties, subregional and regional entities to have finalized the formulation/revision of national, subregional and regional action programmes (NAPs/SRAPs/RAPs) aligned to The Strategy, taking into account biophysical and socio-economic information, national planning and policies, and integration into investment frameworks

**Global target** Percentage of affected country Parties, subregional and regional entities that have formulated/ revised a NAP/SRAP/RAP aligned to The Strategy **≥ 80 %** **2018**

National contribution to the global target

Does your country have a NAP aligned to the Strategy? Yes  No

Qualitative assessment

Is your NAP being implemented? Yes  No

Please answer the following two questions only if your country has not aligned the NAP to the Strategy

Voluntary national target

When do you plan to align your NAP to the Strategy? 2014-2015   
2016-2017   
2018-2019   
No Plan Yet

Which national target your country has established to measure progress in achieving the priorities established in the national action programme, if different from the target suggested above?

Qualitative assessment

Provide any complementary information as needed (e.g., national circumstances affecting the NAP alignment and implementation process)

The alignment of the country's NAP will be guided by the relevant provisions of Samoa's newly established National Environmental Sector Plan 2013-2018 approved last year.

Sources of information

Ministry of Natural Resources & Environment's Annual Reports 2012 and 2013

**CONS-O-7** Number of initiatives for synergistic planning/programming of the three Rio conventions or mechanisms for joint implementation, at all levels

**Global target** Each affected country Party has either one joint national plan in place or functional mechanism(s) to ensure synergies among the three Rio conventions **2014**

**National contribution to the global target**

Was your country implementing joint planning/programming initiatives for the three Rio conventions in the current reporting period? Yes

Yes, but for only two of the Rio conventions

No

Were there any operational mechanisms that facilitated joint implementation of the three Rio Conventions during the current reporting period? Yes

Yes, but for only two of the Rio conventions

No

Please answer the following questions if your country has such initiatives or mechanisms in place

**Qualitative assessment**

If your country has initiatives for synergistic planning/programming of the three Rio conventions, specify the type of joint initiative(s):

Evaluation of national plans and identification of gaps in synergies

Identification of national sectors and policies that could benefit from synergies and cooperation

Review of national policies to enhance cooperation and synergies

Enhancement of the institutional and scientific capacities and awareness of relevant stakeholders

Other (please describe below):

State of Samoa's Environment Review Process (2011-2013)

**Qualitative assessment**

If your country has mechanisms for joint implementation, specify the type of mechanism(s):

Regular meetings between focal points and focal point teams of the Rio conventions

A national coordinating committee for the implementation of the Rio conventions

National coordination on synergies in reporting under the Rio conventions

Other (please describe below):

Samoa's UN-SIDS 2014 occasioned the creation by the Government of a specific coordinating agency for all Rio processes while its specific work is this year's UNSIDS in Samoa. This arrangements provides potential opportunities for strengthening the long term coordination of the country's Rio processes in particular those related to the three Rio Conventions.

Provide any complementary information as needed:

The Ministry of Natural Resources and Environment has always been, for more than two decades ago, the key coordinating and implementing agency for all the MEAs in Samoa, including the Rio processes and the three Rio Conventions (UNCCD, CBD & UNFCCC), However the UNSIDs 2014 has largely extended, in a multidimensional manner, the coordinating role for the Rio processes to other government Ministries such as the Ministry of Foreign Affairs and Trade (MFAT) and Ministry of Finance (MOF) as well as other Corporations and NGOs.

## CONS-O-8

Number of affected country Parties, subregional and regional entities to have established and supported a national/subregional/regional monitoring system for DLDD

## Global target

Percentage of affected country Parties, subregional and regional reporting entities that have established and supported national monitoring systems for DLDD

≥ 60 %

2018

## National contribution to the global target

Is a monitoring system specifically dedicated to DLDD established in your country?

Yes No 

Please answer the following questions if your country has not established and supported national monitoring systems for DLDD by the end of the current reporting period

## Voluntary national target

When does your country plan to establish and support a national monitoring system for DLDD?

2014-2015 2016-2017 2018-2019 No Plan Yet 

Which national target your country has established to measure progress in achieving the priorities established in the national action programme, if different from the target suggested above?

## Sources of information

## Qualitative assessment

Does your country have a monitoring system partially covering DLDD?

Yes No 

Provide any complementary information as needed (e.g., major difficulties experienced, how the system is being supported, etc.):

Absence of national policies and or institutional agencies dedicated / allocated to environmental monitoring covering LDD requirements.

## Knowledge-sharing systems

List any DLDD-relevant knowledge-sharing system in your country, providing an Internet link and estimated number of users per year (add as many rows as necessary).

**CONS-0-10**

Number of revised NAPs/SRAPs/RAPs reflecting knowledge of DLDD drivers and their interactions, and of the interaction of DLDD with climate change and biodiversity

**Global target**

Percentage of revised NAPs/SRAPs/RAPs that have successfully gone through a quality self-assessment.

≥ 70 %

2018

## CONS-O-13

Number of countries, subregional and regional reporting entities engaged in building capacity to combat DLDD on the basis of the National Capacity Self-Assessment (NCSA) or other methodologies and instruments

## Global target

Percentage of affected country Parties, subregional and regional reporting entities that implement DLDD-specific capacity-building plans or programmes/projects

≥ 90 %

## National contribution to the global target

Is your country implementing DLDD-specific capacity-building plans or programmes/projects on the basis of the NCSA?

Yes No 

Is your country implementing DLDD-specific capacity-building plans or programmes/projects on the basis of other methodologies and instruments to assess national capacity-building needs?

Yes No 

Provide any relevant information on the size, scope, effectiveness and status of the initiatives implemented, or other complementary information as needed

## Sources of information

Samoa's National Environment Sector Plan (NES 2013-2018)

Samoa's NCSA reports of 2006

## Qualitative assessment

Has your country assessed DLDD-related capacity-building needs?

Yes No 

Did your country receive technical and/or financial assistance to build capacities to combat DLDD?

Yes No 

From which institutions and which type of assistance was provided?

Financial

Technical

UNCCD Secretariat

Global Mechanism

Global Environment Facility

Bilateral agencies

Other multilateral organizations

**CONS-O-14**

Number of affected country Parties, subregional and regional entities whose investment frameworks, established within the integrated financing strategy (IFS) devised by the Global Mechanism (GM) or within other IFSs, reflect leveraging national, bilateral and multilateral resources to combat DLDD

**Global target**

Percentage of affected country Parties, subregional and regional reporting entities that have developed integrated investment frameworks (IIFs)

≥ 50 %

2014

**National contribution to the global target**

Does your country have an integrated investment framework?

Yes

No

Provide any complementary information as needed (e.g. is the IIF based on the NAP; non-traditional and innovative financing targeted by the IIF; overview of the progress in implementing the IIF in your country; assistance received in the development or implementation of the IIF from the GM or other development partners, etc.)

A feasibility study to identify the potentials and challenges for the development of Integrated Investment Frameworks for SLMs in Samoa and Fiji was conducted in 2012. The results indicated key options for IIF in the two countries including the REDD and Trust Funds for mobilizing long term financing that would effectively support LDD initiatives in the countries in synergy with climate change and biodiversity conservation and sustainable use objectives. The study was funded by the UNCCD Global Mechanism (GM) and implemented by the Secretariat of the Pacific Regional Environment Programme (SPREP) in collaboration with the Government of Fiji (GoF) and the Government of Samoa (GoS).

Please answer the following questions only if your country has not developed an IIF by the end of the reporting period

**Voluntary national target**

When does your country plan to establish an IIF?

2014-2015

2016-2017

2018-2019

No Plan Yet

Which national target your country has established to measure progress in achieving the priorities established in the national action programme, if different from the target suggested above?

**CONS-O-16**

Degree of adequacy, timeliness and predictability of financial resources made available by developed country Parties to combat DLDD

Rating of the bilateral assistance received for the implementation of the Convention and its Strategy during the reporting period

Adequacy of bilateral assistance received	Adequate	<input type="checkbox"/>

Predictability of bilateral assistance received	Predictable	<input type="checkbox"/>
	Fairly predictable	<input type="checkbox"/>
	Not predictable	<input checked="" type="checkbox"/>

Provide any complementary information (e.g., additional information on other aspects beyond those mentioned above which impact proper planning and effective implementation of the Convention in your country, etc.)

Qualitative assessment

Did your country receive assistance in raising resources from bilateral donors? Yes  No

If yes, from whom?

GEF/UNEP for NAP alignment 2014-2015

GM for IFS Feasibility Study 2011

Venezuela Fund for SLM implementation 2009-2010

**CONS-O-18**

Amount of financial resources and type of incentives which have enabled access to technology by affected country Parties

**Global target**

A steady growth in the financial resources allocated to facilitate access to technology by affected country Parties is recorded along the implementation period of the Strategy

A steady growth in the number of economic and policy incentives reported upon is recorded along the implementation period of the Strategy

- Annual reports for 2012 2013 of the Ministry of Natural Resources & Environment
- Ministry of Finance's relevant development aids databases

Voluntary national target

Percentage increase of financial resources allocated to facilitate access to technology by a given year %  Year

Which national target your country has established to measure progress in achieving the priorities established in the national action programme, if different from the target suggested above?

Qualitative assessment

Provide any complementary information as needed (e.g., a short overview of specific aspects and the nature of technology transfer in your country, aspects in which there is a need to increase the level of technology transfer, etc.)

Figures of the national contribution to the target in this report is a significant increase from those of the 2010 and 2012 reports due to a more accurate listing of all UNCCD relevant ending, ongoing and new programs and projects in the last biennium.

Most of the technology transfers are in agriculture, forests, biodiversity, transportation, energy, health, education and local governance to build the resilience and improve sustainable use of land resources in the face of increasing climate and global development changes.
