Qualitative assessment

Does your country have a national communication strategy addressing DLDD and/or DLDD synergies with climate change and biodiversity in place? Yes No

Provide any complementary information as needed (e.g., regarding the implementation of the Comprehensive Communication Strategy, activities relating to the United Nations Decade for Deserts and the Fight Against Desertification, etc.):

In 2012, Uganda marked the WDCD as part of activities to mark the UN Decade of Deserts. The event focused on promoting community level SLM technologies and practices in line with the theme "Health Soils Sustain Your Life: Let's go Land degradation Neutral". Training of 20 radio journalists in SLM reporting with support of the TerrAfrica and the UNCCD Secretariat.

Operational objective 1: Advocacy, awareness raising and education

CONS-O-3

Number of civil society organizations (CSOs) and science and technology institutions (STIs) participating in the Convention processes

Global target

A steady growth in the participation of CSOs and STIs in the Convention processes is recorded along the implementation period of The Strategy.

Voluntary national target

Percent increase in the number of CSOs and STIs participating in the Convention process at national level, per biennium

Which national target your country has established to measure progress in achieving the priorities established in the national action programme, if different from the target suggested above?

Qualitative assessment

Is your country undertaking initiatives to increase the participation of CSOs and STIs in DLDD-related programmes and projects?

Yes No

Provide a short description of actions taken at the national level to promote participation by CSOs and STIs in the Convention processes.

Uganda is promoting country platforms for effective stakeholder participation, particularly CSOs including NGOs, Faith Based Organisations and Private sector to raise their awareness on SLM and address bottlenecks affecting their effective participation in addressing DLDD. This is being facilitated by the SLM component of the Agricultural Technology and Agribusiness Advisory Services (ATAAS) project. The project is also supporting the National Agriculture Research Organization (NARO) and other STIs to strengthen their participation in promoting scientific research on SLM issues and improving the research-extension linkage to roll out SLM technologies and practices in collaboration with the National Agricultural Advisory Services (NAADS). CSOs are also active participants in awareness raising events particularly the World Day to Combat Desertification (WDCD). STIs have equally been involved in designing and implementing trials and demonstrations of SLM and climate resilience technologies in collaboration with relevant sectors and land users.

Operational objective 1: Advocacy, awareness raising and education

CONS-0-4

Number and type of DLDD-related initiatives of civil society organizations (CSOs) and science and technology institutions (STIs) in the field of education

Global target

A steady growth in the number of DLDD-related education initiatives undertaken by CSOs and STIs is recorded along the implementation period of The Strategy

National contribution to the global target: number of DLDD-related initiatives implemented by CSOs and STIs in the field of education

Which national target your country has established to measure progress in achieving the priorities established in the national action programme, if different from the target suggested above?

Qualitative assessment

Is your country undertaking initiatives to increase the number of DLDD-related initiatives in the education sector implemented by CSOs and STIs?

Yes No

Provide a short description of actions taken at the national level to increase the number of DLDD-related initiatives of CSOs and STIs in the field of education.

Faith Based Organisations are being encouraged to integrate DLDD education in the Faith Foundation Education Institutions. A Faith Based Network known as Uganda Faiths Network for Environment Action has been established to facilitate this effort. The network brings together 30 Faith Based Organisations working with the UNCCD National Focal Point Office to integrate SLM in their activities and ensure that land under their control is utilised using SLM principles. The 30 faith organisations have been trained in SLM and climate smart technologies/ practices and are participating in demonstrating these practices to their followers, targeting approximately 3,000 people each year.

CONS-0-5 Number of affected country Parties, subregional and regional entities to have finalized the formulation/revision of national, subregional and regional action programmes (NAPs/SRAPs/RAPs) aligned to The Strategy, taking into account biophysical and socio-economic information, national planning and policies, and integration into investment frameworks

Global target Percentage of affected country Parties, subregional and regional entities that have formulated/ revised a NAP/SRAP/RAP aligned to The Strategy **≥ 80 %** **2018**

National contribution to the global target

Does your country have a NAP aligned to the Strategy? Yes No

Qualitative assessment

Is your NAP being implemented? Yes No

Please answer the following two questions only if your country has not aligned the NAP to the Strategy

Voluntary national target

When do you plan to align your NAP to the Strategy? 2014-2015
 2016-2017
 2018-2019
 No Plan Yet

Which national target your country has established to measure progress in achieving the priorities established in the national action programme, if different from the target suggested above?

Qualitative assessment

Provide any complementary information as needed (e.g., national circumstances affecting the NAP alignment and implementation process)

Initially, country level administrative challenges were experienced in accessing the GEF funds for NAP alignment. This has since been resolved and work is progressing.

Sources of information

CONS-O-7

Number of initiatives for synergistic planning/programming of the three Rio conventions or mechanisms for joint implementation, at all levels

Global target

Each affected country Party has either one joint national plan in place or functional mechanism(s) to ensure synergies among the three Rio conventions

2014

National contribution to the global target

Was your country implementing joint planning/programming initiatives for the three Rio conventions in the current reporting period? Yes

Yes, but for only two of the Rio conventions

No

Were there any operational mechanisms that facilitated joint implementation of the three Rio Conventions during the current reporting period? Yes

Yes, but for only two of the Rio conventions

No

Please answer the following questions if your country has such initiatives or mechanisms in place

Qualitative assessment

If your country has initiatives for synergistic planning/programming of the three Rio conventions, specify the type of joint initiative(s):

Evaluation of national plans and identification of gaps in synergies

Identification of national sectors and policies that could benefit from synergies and cooperation

Review of national policies to enhance cooperation and synergies

Enhancement of the institutional and scientific capacities and awareness of relevant stakeholders

Other (please describe below):

Qualitative assessment

If your country has mechanisms for joint implementation, specify the type of mechanism(s):

Regular meetings between focal points and focal point teams of the Rio conventions

A national coordinating committee for the implementation of the Rio conventions

National coordination on synergies in reporting under the Rio conventions

Other (please describe below):

Provide any complementary information as needed:

The Focal Points of the three Rio-Conventions participate in the governance structures for the implementation of the three conventions. This enables the infusion of synergies based on input provided and information given during the planning and policy processes of the three conventions by the Focal Points. In addition, the GEF National Steering Committee provides a forum to review progress and share experiences in the implementation of synergy projects developed in the framework of GEF. In this respect, the UNCCD and UNFCCC prepared two synergy projects under GEF 5 implementation period. All the National Focal Points for the three Rio-Conventions participated in the development of the national climate change policy.

CONS-0-8 Number of affected country Parties, subregional and regional entities to have established and supported a national/subregional/regional monitoring system for DLDD

Global target Percentage of affected country Parties, subregional and regional reporting entities that have established and supported national monitoring systems for DLDD **≥ 60 %** **2018**

National contribution to the global target Is a monitoring system specifically dedicated to DLDD established in your country? Yes No

Please answer the following questions if your country has not established and supported national monitoring systems for DLDD by the end of the current reporting period

Voluntary national target When does your country plan to establish and support a national monitoring system for DLDD? 2014-2015 2016-2017 2018-2019 No Plan Yet

Which national target your country has established to measure progress in achieving the priorities established in the national action programme, if different from the target suggested above?

Sources of information UNCCD National Focal Point Office

Qualitative assessment Does your country have a monitoring system partially covering DLDD? Yes No

Provide any complementary information as needed (e.g., major difficulties experienced, how the system is being supported, etc.):

Baselines information on DLDD has been collected using partial surveys in 28 out of 112 districts of Uganda. The baseline information collected has been limited to areas where SLM projects are implemented. Different projects have indicators used to monitor progress in the project areas. Monitoring process is financed directly by project funds. Capacity to put in place a monitoring system is under development with financing from the GEF enabling activities.

Knowledge-sharing systems List any DLDD-relevant knowledge-sharing system in your country, providing an Internet link and estimated number of users per year (add as many rows as necessary).

Operational objective 3: Science, technology and knowledge

CONS-0-10

Number of revised NAPs/SRAPs/RAPs reflecting knowledge of DLDD drivers and their interactions, and of the interaction of DLDD with climate change and biodiversity

Global target

Percentage of revised NAPs/SRAPs/RAPs that have successfully gone through a quality self-assessment.

≥ 70 %

2018

CONS-0-13

Number of countries, subregional and regional reporting entities engaged in building capacity to combat DLDD on the basis of the National Capacity Self-Assessment (NCSA) or other methodologies and instruments

Global target

Percentage of affected country Parties, subregional and regional reporting entities that implement DLDD-specific capacity-building plans or programmes/projects

≥ 90 %

National contribution to the global target

Is your country implementing DLDD-specific capacity-building plans or programmes/projects on the basis of the NCSA?

Yes

No

Is your country implementing DLDD-specific capacity-building plans or programmes/projects on the basis of other methodologies and instruments to assess national capacity-building needs?

Yes

No

Provide any relevant information on the size, scope, effectiveness and status of the initiatives implemented, or other complementary information as needed

The NCSA was the main methodology for capacity assessment for DLDD, which was carried out in 2005. On the other hand, specific projects have also applied other methodologies to carry out capacity assessment on specific DLDD themes. For example, capacity assessment has been carried out for land use planning and access to credit by pastoralists and farming communities at national and sub-national levels. Capacity building for Conservation Agriculture (CA) integrated into various SLM initiatives with a focus at CBOs and extension service providers.

CONS-0-14

Number of affected country Parties, subregional and regional entities whose investment frameworks, established within the integrated financing strategy (IFS) devised by the Global Mechanism (GM) or within other IFSs, reflect leveraging national, bilateral and multilateral resources to combat DLDD

Global target

Percentage of affected country Parties, subregional and regional reporting entities that have developed integrated investment frameworks (IIFs)

≥ 50 %

2014

National contribution to the global target

Does your country have an integrated investment framework?

Yes

No

Provide any complementary information as needed (e.g. is the IIF based on the NAP; non-traditional and innovative financing targeted by the IIF; overview of the progress in implementing the IIF in your country; assistance received in the development or implementation of the IIF from the GM or other development partners, etc.)

The Uganda SLM Strategic Investment Framework (U SLM-SIF) developed in 2010 was based on the NAP, NAPA and CAADP frameworks using tools developed by the TerrAfrica Initiative. The U SLM-SIF is a harmonised framework that integrates SLM activities across five sectors, namely, agriculture, energy, water and environment, lands and trade. The framework identifies SLM investments to support on-the-ground activities for scaling up SLM; strengthen the enabling institutional and policy environment for SLM; strengthen commercial and advisory services for SLM and alternative livelihood options; support SLM research and dissemination of best-bet technologies; and improve and strengthen SLM knowledge management and Monitoring and Evaluation. The development and implementation of the U SLM SIF has been financed by Government, as well as bilateral and multilateral partners, including the GEF, World Bank, UNDP, FAO, GM, UNEP, Government of Norway, DFID, GIZ, European Union and supported technically by GM, UNCCD Secretariat, COMESA, NEPAD/TerrAfrica

| | Not predictable | <input type="checkbox"/> |

Provide any complementary information (e.g., additional information on other aspects beyond those mentioned above which impact proper planning and effective implementation of the Convention in your country, etc.)

Predictability is sometimes moderated by local political environment especially as it relates to the expectations and bilateral partner.

Qualitative assessment

Did your country receive assistance in raising resources from bilateral donors? Yes No

If yes, from whom?

The GM support to a regional consultant who facilitated development of projects interphase with bilateral and multilateral agencies.

CONS-0-18

Amount of financial resources and type of incentives which have enabled access to technology by affected country Parties

Global target

A steady growth in the financial resources allocated to facilitate access to technology by affected country Parties is recorded along the implementation period of the Strategy

A steady growth in the number of economic and policy incentives reported upon is recorded along the implementation period of the Strategy

| <p>Over the reporting period, specific targeted efforts have been made to enhance access to technologies and services by small-scale land users through acquisition of technologies from the private sector. For SLM projects, at least one-third of the resources are devoted to provide small grants mainly to facilitate acquisition of technological tools and know how to support DLDD implementation. In addition, there is a youths support programme focusing on technology and investment implemented countrywide by the Ministry of Gender, Labour and Social Affairs.</p> |

Reporting process-related issues

Financial resources

Could your country count on sufficient financial resources to meet UNCCD reporting obligations? Yes No

Provide an estimate of the amount invested from your country's national budget into the current UNCCD reporting process

| 2018 | | |

Human resources

Provide an estimate of the people involved in your country in the UNCCD reporting process, and of the total number of months dedicated by these persons to the reporting process

| Year | Number of people | Number of months |
|------|------------------|------------------|
| 2008 | | |

Knowledge

Could your country count on sufficient technical and scientific knowledge to meet UNCCD reporting obligations? Yes No

If no, describe the main reasons and the difficulties encountered

Capacity to measure many of the indicators is inadequate and resources to invest in such capacity not available. The cost of continuous monitoring is equally high and usually not prioritised in the budgeting process due to other pressing priorities.

Coordination

Was coordination at the national level with the relevant line ministries satisfactory in order to report comprehensively and coherently? Yes No

Participation and consultation

Was a participatory or consultative approach applied to involve all relevant stakeholders in the reporting process? Yes No

Validation

Was a validation meeting held as a part of the reporting process? Yes No

Subregional and regional processes

Did your country cooperate with the entities entrusted with preparing the subregional and regional action programme reports?

Yes

No

Accommodation of specific requests within decisions taken by the Conference of the Parties

Reporting on specific COP requests: iterative process on indicators

Tick the boxes only if you have experienced difficulties in reporting on one or more performance indicator(s). When doing so, place the tick mark under the e-SMART criterion for which the difficulty occurred.
